

# Pearson Learning Solutions

## About Us

Pearson Learning Solutions is part of Pearson, a global leader in education, technology and services. As a partner and trusted consultant to educators, Pearson Learning Solutions is committed to designing total, client-driven education solutions. We are a team of world-class education experts, instructional designers, curriculum development experts, education course writers, development editors and experienced textbook publishers. We tailor solutions to each educator, institution, or organization's unique needs to improve success — whether that is for fully-online, on-site, or blended courses; or for fully-customized curriculum development.

## eBooks

Pearson Learning Solutions creates eBooks for deployment in Learning Management Systems (LMS), portals, custom websites, and mobile devices. Content can be included from a favorite text, or selected from a variety of Pearson texts. Original material may also be included. Students will benefit from the originality of the material, and from having on-demand access to course content, anytime, anywhere.

eBooks may reside in any of our course technology offerings—from CourseConnect to MyLabs to MyCourse —and can be seamlessly integrated into course curriculum. eBooks can be delivered through course and learning management systems, web portals, custom websites, DVDs, USBs, mobile devices, and tablets.

eBooks are innovative in their ability to host audio clips, videos, games, hyperlinks, simulations and assessments, while providing printing, highlighting, and note sharing capabilities. eBooks are Section 508 compliant, and are accessible to people with disabilities.

8 Economical, Ecological, Pedagogical, and Just Plain Smart Reasons to Offer eBooks

1. eBooks facilitate student success.
2. eBooks put the instructor in the driver's seat.
3. eBooks give students what they want.
4. eBooks deliver both at home and on the go.
5. eBooks give instructors customized control over content.
6. eBooks help make classroom learning real-world relevant.
7. eBooks represent today's new academic standard.
8. eBooks are less harmful to the environment
